
HOW KEYFORT CAN BENEFIT YOUR BUSINESS GOING INTO 2021

As we enter the new year it is important to review whether your organisations IT provider is a help or hindrance. Keyfort is an established IT company, that has been providing effective and cost-efficient services; including Cyber Security, IT Services and VoIP Solutions, for 20 years.

Keyforts Services:

Cyber Security:

Keyfort offers many services to help protect your organisation, including; email spam filtering and virus scanning, enhanced managed Anti-Virus protection, firewall management and training for your staff to ensure they are cyber aware and vigilant.

VoIP:

VoIP is a modern, flexible and more efficient phone system where calls are routed over the internet, reducing your telephone bills and streamlining operations.

Cloud Computing:

Cloud transformation is the process of migrating your organisations work, data and software onto the cloud. With Keyfort's Cloud Services (KCS), Keyfort's engineers will identify your requirements and configure off-site backups of your key data to automatically run daily. With KCS your data will be stored under UK only jurisdiction.
